VOLUME CVII.--NO. 231. ALEXANDRIA, VA., TUESDAY EVENING, SEPTEMBER 25, 1906. PRICE 2 CENTS.

OPEN PUBLICITY THE BEST GUARANTY OF MERIT.

When the maker of a medicine, sold through druggists for family use, takes his patients fully into his confidence by frankly and fearlessly publishing broadcast as well as on its bottle wrappers, a full list of all its ingredients *in plain English*, this action on his part is the best possible evidence that he is not afraid to have the search light of investigation turned full upon his formula and that it will bear the fullest scrutiny and the most thorough investigation. Dr. Pierce's Favorite Prescription for the cure of the weaknesses, periodical pains and functional derangements of the organs distinctly feminine, is the only medicine put up for sale through druggists for woman's special use, the maker of which is not afraid to take his patients into his full confidence by such open and honest publicity.

A glance at the published ingredients on each bottle wrapper, will show that it is made wholly from native, American, medicinal roots, that it contains no poisonous or habit-forming drugs, no narcotics and no alcohol—pure, triple-refined glycerine, of proper strength being used instead of the commonly employed alcohol, both for extracting and preserving the active medicinal properties found in the roots of the American forest plants employed. It is the only medicine for women's pecular diseases, sold by druggists, that does not contain a large percentage of alcohol, which is in the long run so harmful to woman's delicate, nervous system. Now, glycerine is perfectly harmless, and serves a valuable purpose by possessing intrinsic value all its own, and besides it enhances the curative effect of the other ingredients entering into the "Favorite Prescription."

Some of the ablest medical writers and teachers endorse these views and praise all the several ingredients of which "Favorite Prescription" is composed—recommending them for the cure of the very same diseases for which this world-famed medicine is advised. No other medicine for women has any such *professional* endorsement—worth more than any number of ordinary testimonials. If interested, send name and address to Dr. R. V. Pierce, Buffalo, N. Y., for his little book of extracts from the works of eminent medical writers and teachers, endorsing the several ingredients and telling just what Dr. Pierce's medicines are made of. It's *free* for the asking.

Infernal Machine for Banker.

An infernal machine addressed to "Jacob H. Schiff, of Kuhn, Loeb & Co., floor of the New York Stock Exchange," was found under a letter box in Philadelphia yesterday morning by a small colored boy, who turned it over to a postman. It was very similar to an infernal machine which was mailed to the officers of Kuhn, Loeb & Co., in New York, August 18, last year, the chief difference being that the bomb found yesterday morning was rigged up in a small tin box, while the one last year was wooden.

David Campbell, a thirteen-year-old colored boy, saw a carefully wrapped package lying under a letter box on Sunset avenue, Philadelphia. The boy picked it up and carried it to his mother. She saw that it was addressed and intended evidently for the mail. Mrs. Campbell told the boy to take the box to the Chestnut Hill substation of the postoffice. On the way to the substation young Campbell met Henry Salzman, a mail carrier, and handed the package to him. Salzman took the boy to the substation, and Campbell explained to Superintendent Knight how the parcel came into his possession

Knight slashed a hole in the bottom of the package. Powder streamed through the hole, and Knight wasted no time in sousing the package in a bucket of water. After it had soaked a while, he took it to the postoffice, where several inspectors and secret service men made an examination of the package.

It was about ten inches long and four inches wide and perhaps an inch and a half high. The sender of the infernal machine had carefully refrained from addressing the package in his own hand. He had taken Mr. Schiff's name, evidently, from a commercial directory of some sort, and after the name he had pasted a slip with the printed words, "Kuhn, Loeb & Co., New York." At one end of the package was pasted a bit of paper, with the words, "Bon Ami," and a short holiday greeting in Hebrew, the latter phrase having been taken apparently, from a Jewish newspaper.

A card, on which was printed a Jewish New York's greeting, was attached to a string, which was tied around the pasteboard box. This string was cleverly attached to a tin box inside the pasteboard box, the tin box being the same size and shape.

The bottom of the sliding lid of the tin box and the bottom of the box were covered with sandpaper. Ordinary parlor matches were fixed vertically, so that they might be expected to ignite if the lid was moved in its grooves. Guncotton, black powder, and hand-molded slugs, bullets, and buckshot pretty nearly filled up the tin box. Three pasteboard tubes full of powder were placed just under the lid.

The ingenuity of what was rather a crude and bunglesome contrivance lay in the New Year's card attachment. It was so arranged that merely picking up the card, it a slight tug should be given, might be expected to move the lid, light the matches, and explode the machine.

Arrival of Stensland.

Under arrest by New York detectives Paul O. Stensland, former president of the Milwaukee Avenue State Bank, Chicago, who stands indicted for heavy embezzlements from that institution, arrived in New York harbor last night. He was taken from the steamer Prinz Adalbert, on which he came from Morocco, to which country he had fled after the wrecking of the bank, and, according to his son, Theodore Stensland, he will plead guilty to several of the charges brought against him.

Stensland has made a complete confession, according to Assistant State's Attorney Harry Olsen, of Chicago, who went to Tangier, Morocco, to take the former bank official into custody, and in his confession he implicated other prominent Chicago men. Attorney Olsen declined to name these men.

Theodore Stensland, who gave out an official statement for his father, declared that the latter had made no signed confession, but that he had admitted committing certain ofiences which constitute embezzlement under the Illinois laws. To some of the indictments for embezzlement his father would plead guilty, he said, and in the case of others he would turn State's evidence and implicate all others who should be indicted in connection with the failure of the bank.

Stensland made the further statement, according to the son, that if the shortage in the bank was over $400,000, the money in excess of that amount had been taken by Henry W. Hering, the former cashier of the bank, who was jointly indicted with Stensland on charges of stealing over $1,000,000 from the bank and for forgery.

Stensland arrived in New York weak physically and showing much evidence of the strain which has attended his extraordinary flight through many countries, his desperate but ineffectual try for freedom down the west African coast, and his final capture in the Moroccan city of Tangier, from which place the United States authorities were permitted to remove him by the government of Morocco. There was an affecting meeting between father and son on board the tug Catherine Moran, which the prisoner boarded at quarantine.

Stensland denies the report that he tried to commit suicide while in Morocco. He says that a sudden fainting spell there was interpreted as an attempt at self-destruction by the Moroccan soldiers.

Stensland was removed to police headquarters last night, and it was planned to keep him there until 9 a. m. today, when he will be removed to the District Attorney's office, and later formally turned him over to the Chicago authorities and taken to Chicago.

Two Storms Coming.

Two great storms are moving toward the east from opposite directions. Professor Garriott, of the Weather Bureau, said yesterday that when they meet there will be a general fall of rain in the Middle and Eastern States. One of the disturbances is another West Indian hurricane, which was reported to the Weather Bureau yesterday morning to be off the west end of the island of Cuba. The other is a rainstorm, now prevailing in the northeast. The hurricane is moving northward and the northeast storm is moving southward, so that in the natural order of things they are expected to meet, and considerable damage is likely to result. The West Indian hurricane is expected to reach the Gulf Coast today or Wednesday.

The Weather Bureau announced last night that the tropical disturbance has passed into the Gulf of Mexico from the Yucatan channel. Its influence on the Gulf Coast has not been felt as yet, except on the south Florida coast, where high southeasterly winds are blowing. The strong area of high pressure that overlies the northeastern part of the United States will serve as a check to the rapid movement of a tropical disturbance northward. A strong disturbance is moving northeastward from the Dakotas into the British possessions.

Storm warnings are displayed on the south Florida peninsula, and advisory messages have been sent by the Weather Bureau to all gulf ports. Storm warnings are also displayed on Lake Superior.

Alexandria Gazette
SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

TUESDAY EVENING. SEPT. 25, 1906.

SENATOR BAILEY, it is stated, has promised to give out a statement regarding his alleged connection with the Waters Pierce Oil Company. The senator may go to Quitman, next Saturday, when a citizens' mass meeting will be held to consider the question of opposing his re-election to the Senate. It will be remembered that while in Washington last week the Senator in commenting on the criticisms that have been made of his connection with the Waters-Pierce Oil Company, said: "No client of mine has ever attempted to influence my opinion on public questions and if they should ever attempt to do it they would have to get out of my presence very quick. It's a rule is to be laid down in this country that no man is to serve in Congress and have business outside, either professional or otherwise, we will soon get a body of professional politicians." All who know Senator Bailey know him to be an honest and honorable man. That he has been, or may be, the attorney for an oil company, may or may not be true, but it is certain that no vote ever cast by him in the Senate was in the remotest way in favor of a trust as against the people of his State or country.

LAST WEEK President Roosevelt gave the warring factions in Cuba till the first of October to get together and be good or else he would give them a taste of his big stick. Last night intelligence came from Cuba that the getting together process was going on well and that "the insurgent committee had announced that there was virtually no differences remaining between them and Secretaries Taft and Bacon." Simultaneous with this information comes the statement that Mr. Roosevelt has reduced his time limit, and notified the Cubans that their differences must all be settled by Friday next, the 28th of September. This looks to many like Mr. Roosevelt feared that peace would be restored in Cuba before he could interfere with his army and thus pervent his desire to annex Cuba—under a pretense Mr. Roosevelt wants his name to go down in history as the man who "acquired" such a rich territory as Cuba and cares little how the acquisition is accomplished. It looks now as though "Cuba Libre" will soon be a dream.

VICE PRESIDENT FAIRBANKS says: "A private secretary is a luxury these days. It costs money to ride on railroad trains since the new rate law went into effect." It must come rather hard on republican politicians who have always ridden on passes to find it necessary to open their purses, but there is a ray of hope that if the next Congress is republican it will appropriate for the Vice President as liberally as it did for the President. As the $25,000 a year for traveling expenses of the President was virtually an increase of 50 per cent. in his salary, the appropriation for traveling expenses of the Vice President will no doubt be made on the same liberal percentage. As all these republican politicians are looking out for the main chance, and incidentally saving the country from the wicked democrats, a republican Congress may be so liberal with the money of the people as to appropriate for traveling expenses for all republican officials.

THE republican policy of forcing the Panama Canal Commission to buy American products unless the price is exorbitant is bearing fruit as the democrats foretold it would. There was but one bid for steel rails at the last bidding and that, of course, from the steel trust at $29 15 per ton delivered at Baltimore and an alternative bid of $16.25 more if delivered at Colon. The price of steel rails to the railroads is $28 and foreign made rails can be bought delivered at Colon for $30. The question is, Will the President decide the bid of the steel trust is "extortionate or unreasonable?" If the Commission is compelled to accept high bids the trusts will soon be demanding "all the traffic will bear." The taxpayers are virtually at the mercy of the trusts under this republican policy.

IN FULFILLING his announced determination to kill himself rather than return to Chicago to live, Christopher Forst, fifty-four years old, committed suicide by swallowing a quantity of strychnine and sulphur at his home in Washington on Sunday. If suicide is justifiable, this man had good cause.

SECRETARY LOEB has stopped denying that President Roosevelt is willing to take a third term and the federal officials' hope of the continuation of public pap has risen accordingly.

THE Petersburg Index-Appeal on Sunday issued a handsome forty-page industrial edition, which reflects great credit upon this excellent paper—one of the best in the State. The edition is well illustrated and contains much of interest to people not only of Petersburg but to those in that entire section of the State.

From Washington.

Correspondence of the Alexandria Gazette.]

Washington, Sept. 25.

Secretary of War Taft has requested that additional war vessels with as many marines as possible be sent to Cuba without delay. A telegram was received by the Navy Department today from the President at Oyster Bay in which the department was ordered to send to Cuba, as soon as possible, all of the marines aboard the battleships of the North Atlantic fleet, a total of 450 men. Six hundred more marines, who will be taken from the naval stations on the Atlantic coast, will follow within a few days. It is evident that Secretary Taft considers the situation in Cuba rather worse than better. While no definite details of the contents of his dispatch to Oyster Bay could be obtained at either the State or the Navy Departments today, it was learned that its general tone was decidely pessimistic. It is even intimated that Mr. Taft has warned the President that his peace mission is liable to fail and has requested that immediate preparations be made for an armed intervention by the United States. The President has sent orders to the Navy Department to rush sailors and marines to Cuba. It may be necessary to order to Cuban waters some of the large battleships. It is believed that orders were also received by the Was Department today to rush preparations for the sending of an army of occupation to Cuba. That orders of a definite character were received from Oyster Bay there is in doubt.

The republican congressional committee has opened a soliciting office here and want all the money that they can get.

Although the cost of operating 216,973 miles of railways in the United States during the year ended, June 30, showed an average increase of $101 per mile, the increase in net earnings were $55,602,412, according to the annual report of the Interstate Commerce Commission. There were 1,382,196 persons employed, an average per mile increase of 100. The par value of the amount of capital outstanding was $13,805,258,121. Of this 37.16 per cent paid no dividends. There were eight hundred millions of passengers carried. There were 537 passengers killed against 441 last year. The total number of casualties on railways reached 95,711, of these 9,703 were killed and 86,008 injured.

Because of the absence of Secretary of War Taft and Assistant Secretary of State Bacon, members of the executive committee, the meeting of the National Red Cross Association which was called for today has been postponed until October 1st.

The Government Printing Office.

Public Printer Stillings yesterday inaugurated his system of efficiency as applied to government work. By it he hopes to be able at any time to give an exact statement as to the cost of any government job. Heretofore, he says, estimates have been based on theoretical lines, but he now proposes to make it a matter of exact knowledge. He declares that the new system will not impose any extra work on the printers, bookbinders or others employed in the office, but, on the contrary, will secure to them proper credit for the work they individually do. The change being more or less radical from the old system, Mr. Stillings said that he fully expected to meet with much criticism, although he said his action was a distinct advance in the conduct of the office. It is believed that this new order will call forth bitter opposition from the labor unions represented in the great government printing establishment. It is a fact that Assistant Secretary Newberry's attempt to break into the union rules prescribing certain stints of work at the Washington navy yard recently failed, owing to the opposition of the unions, who through committees vigorously protested against the competitive system, which, they asserted, it was sought to impose upon the workmen. The efficiency record in the case of the government printing office will, they fear, be made the basis for promotion and reward, and thereby induce individual competition directly contrary to the principles of the unions.

Richmond Republicans.

A mass meeting of the republicans of Richmond was held last night at Sanger Hall for the purpose of naming a new city committee and appointing delegates to the convention in Manchester today.

The session was exciting, in that there was a closely drawn fight for control of the committee by the "lily whites" and the "chocolate drops," the colored element in the party. The whites took charge of the meeting from the start and ruled it, though the negroes were allowed to note an appeal.

A solid white delegation to the Manchester convention was elected. The negroes, after having appealed from the chair, remained on the floor of the hall and continued to wage the battle for control. The city committee, which is composed of forty-odd members, will also be solid white.

Resolutions were adopted indorsing the administration of President Roosevelt and State Chairman Slemp.

An effort was made to induce John R. Ryall to offer himself as a candidate for Congress, in which event the mass meeting was prepared to indorse him, but Ryall refrained from making such an announcement.

J. M. Ellett is also being pushed to the front as a possible candidate for congressional honors.

It is not yet certain that the Manchester convention will put a nominee in the field.

Five Killed in Railroad Accident.

Five are dead and fifteen or more are injured as a result of a rear-end collision of a passenger train and switch engine in the Minneapolis, and St. Louis Railroad yards at New Prague, Minn., forty miles south of Minneapolis yesterday. According to Vice President Day, the accident was caused by a switching engine in the yards running into the main track, on the time of the passenger train which was about fifteen minutes late. Both engineers jumped when they saw that the crash was inevitable. One engineer escaped, and the other broke his collar bone. All the express and mail messengers escaped unhurt. Apparently the passengers in the smoking car were the only ones hurt. The express and baggage cars telescoped into the smoker and practically every person in the car received some injury. Miss Myrtle Vinton, of Minneapolis, and Miss Goldie Gorrell, of Marshalltown, Iowa, did splendid work in caring for the injured. They were passengers on the train, and when the crash came, at once set about work. They tore their skirts into strips for use as bandages, and seemed to be everywhere where aid was needed. Their efforts met with the highest praise on the part of others in the rescue work.

News of the Day.

Steamboat traffic between St. Louis and Kansas City has been resumed after a lapse of 20 years.

A league of American Catholics has been formed to create a schism in Rome and organize a distinct Callican Catholic Church.

True Wing, backed down from 15 to 1 to 4 to 1, won the Speculation Stakes, selling, at Gravesend yesterday, defeating the favorite, Wes, by three quarters of a length. Her victory was a severe blow to the ring, as she was one of the best played horses of the meeting. It is estimated that $30,000 was won on her.

Mrs. Alice Perkins, daughter of a Detroit merchant and wife of Spencer C. Perkins, a clubman, has disappeared from her father's home, and is vainly sought by Sheriff Burns. She had left her husband, the reason stated in a divorce bill recently filed being that he has negro blood in his veins. This is indignantly denied by Perkins, a brunette of rather the French type. His sisters who have visited in Detroit are white of skin and refined young women.

A boxing match at the Portland Auditorium at Portland, Me., last night, between Terry Martin and Jack McKenzie, both of Philadelphia, which was witnessed by 3,000 persons, came to a sudden termination in the fifth round with the collapse of McKenzie and his death ten minutes later. Just before the close of the round, Martin delivered a hard blow over McKenzie's heart. McKenzie staggered back, but immediately recovered, and returned two blows before the gong rang. He went to his corner, and while his seconds were administering restoratives he suddenly became unconscious and died just after being carried to the dressing room.

Discovering that his sixteen-year-old daughter was to become a mother in a few months, John Bullard, a well-to-do planter, who lives near Powder Spring, Ga, yesterday morning shot the girl to death. He fired six shots into her body, three of the bullets entering her head and the other three taking effect in her body. Bullard, immediately upon committing the crime, went to his brother and informed him of what he had done. "Ruth is better dead than living with such shame coming to her," said Bullard, "and when she told me, I declared that there was nothing to do but to kill her, and she agreed with me." Bullard is a widower, and the dead girl was his only child. Bullard himself is in the last stages of consumption.

News comes from Mountain City, Tenn., of the killing in the North Carolina mountains near there of Rayburn Grayson, the twenty-two-year-old son of Frank M. Grayson, a prominent citizen of Johnson county. Young Grayson, with a party of boys, had gone to the home of Mann Davis. The boys were shooting about the house Saturday night, when Davis opened the door and fired in the direction of the intruders. The boys fled, but Grayson was missing. His dead body was found in a ditch near the Davis home by his father on Sunday. Young Grayson, it is said, was killed by a pistol shot, but Davis claims he fired only a shotgun. This has led to the suspicion that Grayson might have been murdered by an enemy in his own party as it is claimed there were those in the party who bore a grudge against him.

UNITED STATES TO INTERVENE.

President Roosevelt has shortened the time allowed and now declares if peace negotiations are not concluded in Cuba by September 28, next Friday, the United States will intervene with armed troops.

This statement was made yesterday by a high government official.

It is hinted that two or three foreign countries, notably Germany, is becoming anxious for an early peace on the island, and have intimated as much to the President.

They declare that their losses will be enormous if the present state of affairs in Cuba continues.

These statements have been placed before the President, it is said, and have caused him to reach the decision that dilatory tactics on the part of Palma's government and the insurgents would not be tolerated.

Six thousand five hundred horses and mules will be delivered to quartermasters at Omaha and Junction City, Kans., today, and they will at once be loaded upon cars for delivery in eastern posts. Most of them will be shipped direct to the Department of the Gulf.

The naval colliers Leonidas and Hannibal will leave today from Lambert's Point and Newport News, loaded with coal for the warships in Havana harbor. The supply ship Celtic left New York Friday for Havana, and is expected at that port Wednesday.

Brig. Gen. Crozier returned to Washington yesterday after visiting the different arsenals in the east, and states that his department is now thoroughly prepared to meet any call that may be made upon it.

Both army and navy are ready and waiting. All await the signal from the Chief Executive, and the movement against Cuba will then start all along the line.

Twenty-two Killed.

At the coroner's inquest at Jellico, Tenn., yesterday testimony was heard which increases the death list of last Friday's explosion from seven to twenty-two and five are still missing. According to witnesses examined yesterday afternoon, fifteen men, who were standing near the car, were killed by the explosion. The men were laborers, and their names are not known. A country woman, living near Jellico, visited the place searching for five children to whom she gave permission to go to Jellico Friday and attend a circus. It is feared that they were also killed by the explosion and that the full list of dead may reach twenty-seven. The body of an unknown girl, probably two years old, was found yesterday in a field a half mile from the scene of the explosion. It was perfectly nude, but not mangled.

Rescue of a Merchant.

A prominent merchant of Shongo, N. Y., J. A. Johnson, says: "Several years ago I cantracted a cough which grew worse, until I was hardly able to move around. I coughed constantly and nothing relieved my terrible suffering until I tried Dr. King's New Discovery. Before I had taken half a bottle my cough was much better, and in a short time I was entirely cured. I surely believe it saved my life. It will always be my family remedy for colds?" Among the escaped prisoners from Bristol are John Orr under sentence of 18 years for murder, Will Whitaker under sentence of 15 years for burglary, and Porter Hale, a negro porter, under sentence of 10 years for burglary.

The Secretary of War yesterday approved the plans of the army engineers for a $400,000 pier to be built for the Jamestown Exposition, on Hampton Roads, near Norfolk. The pier consists of two arms extending 1,500 feet into the water, the ends being connected with a mammoth arch, under which vessels can pass and steaming between the piers approach the landing.

A serious shooting affray between C. L. Perrow, a young white man and son of a well-known farmer, and four negroes occurred Sunday night on a bridge near Danville. As a result, Perrow was shot three times, and is now at the point of death. Ed. Graves, one of the blacks with whom the fight started, was stabbed several times in the back by the white man and may die. Perrow and the negroes had been drinking together and a quarrel arose. All of the blacks were armed with pistols, and seventeen shots were fired at the white man. Graves and Perrow are being guarded by the police at their respective homes.

NEGROES RETALIATE.

Negroes in Atlanta and vicinity have begun retaliation for lynchings by the mob Saturday night. Although only meager reports have been received, it is confirmed that three county policemen, riding along their beat in South Atlanta, near Clark University, a negro college, were ambushed from an alley, about 9 o'clock last night, with the result that Policeman Heard and another officer, name yet unknown, were killed, and the third officer was shot fatally and is dying at the Grady Hospital. Still another officer is reported missing.

The policemen, who were mounted, with a squad of militiamen, were pursuing the negroes into the woods. The casualties on the other side are not known.

At Howells Station, three miles west of the center of Atlanta, the railroad operator has been killed, and another man in the same office either has been killed or wounded by negroes.

The city marshal of Edgewood was shot, but not seriously hurt, while trying to arrest a negro late yesterday afternoon. Other similar rumors are heard, but lack confirmation.

In anticipation of possible further trouble, Mayor Woodward yesterday issued an order that all boys under twenty-one years of age must keep off the streets after 8 o'clock at night. He says this order is to be enforced strictly. He has also asked all citizens to remain in their homes at night until the present troubles shall be passed.

Thomas Dixon's play, "The Clansman," booked to appear in the theatre at Macon, Ga., Wednesday night, will be denied that privilege, by order of the mayor, in view of race riots in Atlanta. It is deemed unwise to allow a performance of "The Clansman." Steps will be taken to keep the show out of the theaters in Georgia. The public is not favorable to a second appearance.

The Montgomery, Ala., Council last night unanimously passed an ordinance calling on the mayor to prohibit the production of Thomas Dixon's "The Clansman" Thursday next, on account of the excited condition of the public mind through the Atlanta disorders.

TWENTY NEGROES KILLED.

One Thousand Negroes Arrested—More Rioting.

Atlanta, Ga., Sept. 25.—Twenty negroes were killed today in-a-hand to hand fight with policemen while resisting arrest. Troops are rounding up all negroes in the Brownsville section. The blacks are talking louder of revenge and the situation generally is regarded as more serious.

Additional troops have been ordered out by Governor Terrell and by night 2,000 armed militiamen will be on the ground.

It is believed the crisis in the trouble will come with darkness tonight and the most serious trouble of the outbreak is expected.

A report was circulated at noon that a white woman and her babe had been killed on Edgewood avenue, and this greatly aroused white residents. The report has not been confirmed.

"Darktown" was the scene of today's killing of negroes by police. Shots were fired at Patrolman Smith and Maddox as they were passing through Randolph street. They rushed the house from which the bullets came, and met Will Moreland and James Fuller, desperate blacks, face to face. The negroes opened fire and the officers replied

Moreland and Fuller were killed.

Five dead bodies were found today at the scene of the fight in Brownsville. It is believed a dozen more will be discovered

Conditions in the Brownsville district are becoming desperate. Negroes are frightened and 200 families moved out today. All who tried to enter the city were stopped and searched. If they had arms, they were arrested.

The Mayor has declared he will arrest all the newsboys of the first paper that tries to get out an extra as these inflammatory extras have done much to arouse the people.

Atlanta, Ga, Sept. 25.—Two more negroes have been shot and killed by officers.

Atlanta, Ga., Sept. 25.—All the students of Gamon negro seminary, 400 in number, with President W. J. E. Bowen, of the faculty, have been placed under arrest, in Brownsville, on account of the trouble there this morning. Gov. Terrell has just been appealed to send troops out there to protect the property and lives. A detachment of the regiment is already out This runs the negro arrests up to 1,000, every one with weapons being arrested. Serious trouble is feared later.

Brownsville, the negro settlement on the outskirts of the city where policeman Heard was killed last night and several other officers wounded, was raided today by the Georgia militia, and 257 negroes were arrested. There are still hundreds of negroes in the settlement, however, many of them armed and ready to fight, and it is said a pitched battle will be fought before the day is over, as the authorities are determined to arrest every man carrying a weapon.

United States soldiers from Fort McPherson are coming by forced marches to help restore order. They will be used to back up the State authorities.

Notices signed K. K. K., representing the Ku Klux Klan, the old organization of reconstruction days, have been posted throughout the city. They warn negroes "read and run."

An unusual incident in connection with the race riots is announced in the death of Mrs. Robert C. Thompson, who was literally frightened to death when two negroes were attacked by a mob in the yard of her next door neighbor. Mrs. Thompson was in a delicate condition, and yielded to the shock of hearing pistol shots at such close range. The fight at Brownsville last night appears to have been between officers and negroes.

So intense was the darkness that neither friend nor foe could be distinguished. The officers fired as they saw the flash of the negroes' guns.

When Officer Heard fell, Policeman Jordan used his body as a shield and pumped lead into the mob, killing four negroes. Finally several prisoners were rounded up and the officers started with them for town on a car. News of Heard's killing had preceeded them. When Crew street was reached the mob pulled officers and prisoners from the car. In the fight the blacks escaped. They were pursued by the mob and ran on the porch of Park Commissioner S. H. Manley's residence. There they were overtaken and fired upon. It was these shots which killed Mrs. Thompson.

Leaving the negroes for dead, the mob returned to secure the others. Manley discovered the men were not dead, and had them removed to Grady Hospital where it is said, they will die.

All saloons and bars are being closed today, as a precautionary measure.

Birmingham, Ala, Sept., 25.—Every train from Atlanta is bringing negroes to this city, and all are panic-stricken. Two hundred have arrived here since midnight, and others are on the way. Two hardware firms here last night received large orders for Winchester rifles and ammunition from parties in Atlanta, but decline to say who gave the orders. The rifles and ammunition are being shipped today.

Negro Prisoners Rebel.

Knoxville, Tenn., Sept. 25.—Thirty-five negro prisoners, including 18 murderers, two of whom are sentenced to die, rebelled against the jailor at the Knoxville county jail last night, refusing to go from the corridor into their cells. For two hours they kept the officers at bay, although enclosed behind bars. Four of the officers were cut with bottles thrown by the prisoners. The jailor turned the hose on the refractory negroes, but this frenzied them. The negroes finally captured the hose and turned it on the officers, and then attacked the latter with bottles, plates, cups and saucers; also broom handles on the ends of which open knives were fastened. Three of the officers were hemmed in by negroes and had to draw their pistols and threaten death to the confined prisoners in order to get out of range of the bottles. The sheriff finally quelled the negroes, but only after the police had been called. The trouble resulted from the negroes reading an account of the Atlanta race riot.

Attacked by Strikers.

Chicago, Sept. 25.—In a riot today at the east gate of the Standard Oil plant at Whiting, Indiana, in which several hundred of the union striking employes took part, a dozen persons were severely injured. The riot began when a party of non-union boilermakers were set upon at the gate. Many suffered slight injuries when struck by stones and bricks which flew through the air. The riot was at its height, when a score of the police arrived to protect the plant. The rioters then broke for cover.

New York Democrats.

Buffalo, N. Y., Sept. 25.—The Hearst boom grows every hour and it is believed here that nothing can beat him. Charles F. Murphy is now for him in the open. Congressman Sulzer who was expected to divide the Tammany strength, has consented to quit.

The selection of Lewis Nixon for temporary chairman is regarded as a Hearst victory. Nixon announces that he will only make a ten minute speech, and then let the convention proceed to business.

Today's session should, therefore, be a short one, as committees to be appointed will have charge of two big unsettled questions—the platform and the fate of about twenty contesting delegations.

William F. Sheehan still sticks to the statement that Hearst will be beaten.

Previous to the assembling of the convention it was said that it was very probable that all anti-Hearst forces will concentrate on Gaynor.

The convention was called to order at 12:55 p. m. Mr. Lewis Nixon was made temporary chairman and he made a brief speech before assuming the position.

The convention at 1:15 p. m. adjourned until 11 o'clock tomorrow morning, having been in session twenty minutes.

Albany county delegation at a caucus today decided to support W. R. Hearst for Governor. As they head the list of counties on the roll call, they will place Mr. Hearst's name before the convention.

If a Bryan resolution is introduced in the convention it will pass in some form. This was the generally accepted idea among the democratic delegates today.

New York, Sept. 25.—New York is promised another spectacular "back to the people" campaign from William Travers Jerome. With every outlook here today favoring the nomination of Hearst, it is declared that his selection will be followed by one of the most sensational bolts in the history of state politics. There will be no walking out and it is scarcely believed that there will be any rump convention. There will probably be a mass meeting, however, following which the name of Jerome will be placed in nomination by petition. Then will come a spectacular campaign to beat Hearst and the raising of the cry by the bolters to "save the democratic party from socialism and revolution."

New York Republicans.

Saratoga, N. Y., Sept. 25.—President Roosevelt will name the man nominated for Governor by the republican State convention. Unable to agree upon the head of the ticket, the "unbossed" convention, meeting for its preliminary session today, will turn for guidance to Oyster Bay. It is the feeling today among the delegates who find the forces of Charles E. Hughes, the insurance prober, and Lieut. Gov. Bruce engaged in a fierce struggle for mastery of the convention.

Lieutenants of Bruce made an aggressive campaign today to break up the New York county delegation headed by Herbert Parsons. The New York delegation is fighting for Hughes. Parsons is regarded as the representative of President Roosevelt, and he is in constant communication with Oyster Bay. It is the thought that President Roosevelt is behind Hughes that makes the candidacy of the insurance inquisitor so strong There is a disposition on all sides to wait on Buffalo to find out if Hearst is to be endorsed. There is little talk of dark horses, today

The 1,106 delegates to the republican State convention met shortly after 12 o'clock today for the first session of the convention. Chairman Odell, of the State committee, called the convention to order,

The convention adjourned at 1:46 until 11 a. m. tomorrow.

Objections to Peace Terms.

Havana, Sept. 25.—Opposition from government and moderate sources has caused another lull in the peace negotiations. Secretary Taft's declaration that he hoped to be able to announce a settlement by this evening, now seems doomed.

The American peace commissioners had little difficulty at their conference with the committee of liberals and insurgents last night in coming to an understanding. When the terms then agreed to were put up to the government for approval there was a balk. President Palma, and especially the satellites who have maintained themselves in fat official positions, objected to the terms as being too favorable to the insurgents. They could not see their way clear to agree to peace under the circumstances.

It is understood practically all the liberals' contentions were agreed to except that Palma should retire. This meant new elections of congressmen and senators elected a year ago and new elections in the municipalities.

Granting these new elections was to throw a blight upon the legality of Palma's own selection, since he was chosen at the same time. He objected for one thing to the position the compromise would place him in before the world. Other moderates objected to allowing the control of the government to practically pass into the hands of the liberals, as it is conceded they will win if another election is held.

Col. Carlos Duboy, who at divers times was reported to have started an insurrection in Santiago province, died today of lung trouble.

Attempted Assault.

Mobile, Ala., Sept. 25.—At an early hour today an attempt was made by an unknown negro to assault Mrs. J. M. Touchstone, wife of a Louisville and Nashville railroad conductor, and her twelve-year-old daughter, and it was only through the desperate struggle that the mother gave the man that she and her child were saved from harm. The negro effected an entrance into the place by forcing a door and was in bed with Mrs Touchstone when she awoke and began fighting him. He knocked her down several times, but she did not lose consciousness. Her twelve-year-old daughter came to her rescue, and the negro threw her to the floor and attempted an assault on her, but the mother fought him until assistance arrived and the negro escaped. A posse of police and citizens searched for the negro but he could not be found. Mayor A. S. Lyons has ordered out the entire police department to search for the negro.

Gov. Vardaman and the Race Issue.

Jackson, Miss, Sept. 25.—"In my opinion, the only solution of the race question" said Governor Vardaman, of Mississippi, in discussing the Atlanta riots, "is the repeal of the 15th amendment and a modification of the 14th. The civilization of the white man cannot be suited to the semi-savage negro. When you undertake it, you demoralize the white and spoil the negro.

"The civilization of the negro lasts just as long as he is under the control of the white man who inculcates it. When left to himself, he as naturally drifts back to the barbarism of the jungle. The crime of criminal assault is the brutal manifestation of the negro's aspiration for social equality."

Mystery Unsolved.

New York, Sept. 25.—The mystery surrounding the murder of the man whose dismembered body was found Sunday in an excavation at Eleventh avenue and 36th street remains unsolved. So far the head of the victim has not been found and until it is identification is impossible. Two men, Greeks, are under arrest, but the police acknowledge that the only suspicion against them arises on the theory that the victim may be "Jack" Mano, brother of Zacharia Mano, whose name appears on the gunny sack in which the body was wrapped. The suspects, John Randonekes and George Capenake, proprietors of a candy store at 149 Eighth avenue, had a grievance against Jack Mano, who has been missing several weeks.

Town Burning.

Austrian Warships Coming.

Murder and Attempted Suicide.

Concord, N. H., Sept. 25.—For reasons as yet unknown but supposedly from jealousy, Whitney D. Barrett, a veteran police officer of Penacook, shot and killed Miss Julia Chadwick today, and then turned the pistol against himself. A previous attempt by Barrett to kill the girl was tharted by a man who wrested away from him his weapon. The officer got another revolver and pursuing his victim into a trolley car, shot her in the vestibule. Miss Chadwick was 35 years old. Barrett was 50 and married. He is not expected to live.

Stensland En-Route for Chicago.

New York, Sept. 25.—Paul O. Stensland, former President of the Milwaukee Avenue Bank of Chicago, brought back from Tangier, where he fled after wrecking the bank, today signed a formal waiver of his right to contest extradition to Illinois and was immediately turned over to the Chicago authorities. He will start for home at 3 o'clock this afternoon.

Will Return to the Ring.

New York Stock Market.

New York, Sept. 25.—Politics has played an important part in the stock market operations so far today and the possibility of Hearst's nomination at Buffalo is used as a reason for selling of Interborough, Metropolitan, Brooklyn Rapid Transit, and Consolidated Gas. Business was small in volume in the general list and outside of a few issues, there were few price movements worth noting.

Wearied by the attacks that have been made upon him personally and upon his administration, rumor now says that Mayor Weaver, of Philadelphia, is seriously contemplating resigning his office and retiring.

Carlyle House "Finds."

According to Capt. Webster, of the city police force, the lessee of the Carlyle House if he takes the trouble can make a more valuable "antique find" in the grounds of that historic building than the "discovery" made by the Smithsonian Institution officials and the Washington newspaper men in the cellar of that house. The captain has told the lessee, that he is convinced that the body of the famous Indian Chief Tecumseh is buried in the garden to the east of the house. It is a well known fact, which can be attested by hundreds of Alexandrians, that a costume worn by Tecumseh was for many years exhibited in the old Alexandria Museum and was destroyed when the museum, which occupied a place in the old city market house, was burned in 1871. There is a tradition that many years before this costume came into the possession of the pale faces, the body of Tecumseh was borne by a number of faithful attendants in an easterly direction to the brow of the hill on what now stands the Carlyle House and there, in an entirely different costume, in a grave eighteen feet east and west it was deposited at low noon at the foot of a large cherry tree. No sprig of acacia marked the spot for it was believed by the natives that the tree (trees in those days lived much longer than the cherry trees of the present generation) would still be flourishing after the body of their chief had become a part of the earth from which it sprung—unless some very truthful boy should cut the tree down with a hatchet. The captain says he is convinced that if the lessee of the house, the Smithsonian officials and the Washington newspaper men will not get tired, but dig deep enough, they will find not only the body of Tecumseh but the roots of the cheery tree; but should they fail they can inter in the hole they make in the ground the Indian figure which now decorates the front of a certain cigar store in this city and in a few days thereafter dig it up again, and that will be a good enough Tecumseh for those who believe in the "mummy" find in the cellar of the Carlyle House.

Charges Against Policemen.

The alleged inefficient actions of the police of the Fourth precinct in Washington at the time they were called to aid in the rescue of Engineer Hugh S. Murphy, when he was being scalded to death beneath an overturned engine of the Southern Railway, at Sixth street and Maryland avenue southwest, about two weeks ago, will undergo a rigid investigation. Commissioner Macfarland announced yesterday that he is determined to sift the matter to the bottom. The Commissioner also said that he would investigate the striking of Capt. Dixon, of the District Fire Department, by Capt. Matthews, of the police of the Fourth precinct. Dixon was not in uniform when he tried to get within the lines. Capt. Matthews, in his anxiety to drive the crowd back, is alleged to have struck Dixon.

Charles Bendheim, as attorney for Division 160 Brotherhood of Locomotive Engineers, who made the charges against the police, called upon Commissioner Macfarland yesterday and filed formal protest and request for an investigation.

Commissioner Macfarland informed Mr. Bendheim that he would hear all his witnesses and protestants together next Thursday morning.

Police Court.

[Justice H. B. Caton presiding.]

The following cases were disposed of this morning:

Joseph Martin, alias John Morgan, arrested by Officers Garvey and Bell charged with being drunk, indecent conduct, abusive language and resisting the officers, was fined $20, or given 60 days in jail.

A. B. Rollins, arrested by Officers Jones and Sherwood charged with improper conduct at the union depot, was dismissed with an admonition.

Pearl Hawkins, colored, arrested by Officer Jones charged with disorderly conduct and fighting, forfeited $5 collateral by failing to appear.

Hattie Conway, colored, arrested by the same officer for similar offenses, was fined $5 for one and $2.50 for the other.

Walter Elzey and Samuel Watts, both colored, arrested by Officer Jones charged with stealing ice from Shuman & Son, were fined $5 each.

Fannie Bryant, colored, arrested by the same officer for disorderly conduct and fighting, was fined $2.50.

Martha Lewis, colored, arrested by Officer Beach for carrying a pistol, was fined $20.

To Present Petition.

Deputy Sheriff H. B. Fields, of Alexandria county, will today go to Richmond to petition Gov. Swanson to make requisition upon the District of Columbia for Joseph Wright, colored, now held at the District jail, who was identified by Miss Mabel Risley, as the man who attacked her near Four Mile Run recently. Commonwealth Attorney Crandel Mackey states that he believes the governor would sign the demand, which would then be presented to the chief justice of the District Supreme Court, and Wright would be delivered to the Virginia authorities. When Wright was questioned Sunday, he said that he had never been to Alexandria except by ferryboat, and then later admitted that he had driven here along the road which runs near Luna Park. Wright will be tried on October 15.

Accident to Mr. Bangs.

Mr. Frank C. Bangs, a well known actor of the old school, was knocked down and run over by a carriage in Herald Square, New York, Sunday night. He was picked up unconscious and taken to his apartments in the Gelsey House, where he was revived. His physician found that one thigh was broken. He was later removed to the New York Hospital. Mr. Bangs was cast for a leading role in "The Bishop's Carriage," now on rehearsal for the beginning of its second season. Mr. Bangs is an Alexandrian by birth, and has many friends and acquaintances in this city.

Virginia W. C. T. U.

The twenty-fourth annual convention of the Virginia Woman's Christian Temperance Union began its sessions at the Baptist Church last night. The session was well attended, delegates from all parts of the State being present. The consecration service was led by Mrs. M. W. Newton, which was followed by music by the choir of the Baptist Church. The services were opened by the reading of the 103rd psalm by Rev. Dr. Fisher who also offered prayer and then the services were turned over to Mrs. Newton. A call was made upon the members to repeat one of God's promises, which call was responded to by some thirty or forty of those present. After the singing of the parting hymn the convention adjourned till this morning.

The executive committee met at 9 o'clock this morning, the session lasting nearly an hour.

There was a good attendance when the convention was called to order at 10 o'clock this morning by Mrs Howard M. Hoge, the State President.

Devotional exercises, conducted by Rev. Dr. Fisher, followed. The doctor read the second chapter of the Epistle of James. The opening invocation was offered by Mr. R. P. W. Garnett. Then followed a roll call of officers vice presidents and superintendents of departments, appointment of commitees on credentials, courtesies, resolutions, telegrams and plan of work; a time-keeper and pages.

The report of the executive committee followed, after which the president read her annual address which covered the whole ground of the temperance cause in Virginia. Mrs. Hoge was given a vote of thanks for her admirable address.

The report of Mrs. L. M. Shepperd, corresponding secretary, was then submitted; also that of Miss Keean, of the Virginia Call; also the treasurer's report.

At 12 o'clock there was noontide prayer, led by Mrs. Clinton Smith, of Washington.

The convention subsequently adjourned until 2 o'clock this afternoon.

The following was the programme of the afternoon service:

Fined Twenty Dollars.

John Martin, alias John Morgan, went to a residence in this city yesterday and demanded of the lady of the house a complete change of underclothing, alleging that it had become necessary to discard the suit he was wearing on account of parasites. He said if she had no male clothing, he would accept that of females. Martin acted in an impudent manner and his conduct became so improper that the lady had to appeal to the police to arrest the man. Officers Garvey and Bell took charge of Martin and the latter exhausted his vocabulary of invectives on the officers while on the way to the station house. On his arrival there he fought the officers while they were engaged in placing him in a cell. Martin was brought before the Police Court this morning, and after the evidence against him had been heard, Justice Caton asked him if he had anything to say in defense. Martin said he had nothing to say in extenuation. He was fined $20, or given 60 days in jail.

Accident to a Fisherman.

A fishing smack belonging to Captain Faunce was lying at Smoot & Co's wharf, between King and Cameron streets, yesterday afternoon when a government tugboat passed the pier, causing heavy swells. The fishing boat was thrown by the commotion of the water against the wharf with considerable violence. Captain Faunce, who was aboard the boat at the time, placed his left foot against the wharf for the purpose of preventing injury to the boat, when a heavy swell forced the craft against the pier, the captain's leg in the meantime acting as a fender. Three of his toes were cut off by the impact. The injured man was later taken to his home in Washington.

Fire.

About eleven o'clock this morning a gasoline stove exploded in the residence of Mrs. Emma Swann, on the east side of Alfred street, between Cameron and Queen, and set fire to the back part of the building. The fire department responded promptly to the alarm which was sounded and after a tedious fight with the flames they were finally subdued, not, however, until the house had been flooded with water and rendered temporarily uninhabitable. The residence of Mr. Thomas Bayne, adjoining on the south, was threatened, but the firemen succeeded in confining the fire to the building in which it originated.

The Metropolitan Magazine for October, which has been received from the publishers in New York, is a special autumn number and contains an unusual array of articles of far-reaching interest. Its most interesting feature is the symposium of papers on the future of life insurance, Paul Morton and Chas. A. Peabody each contributing discussions on the situation. "The American Museum of Natural History" and "The Drama of the Month" are noticeable among other good articles. The fiction of this issue is especially attractive, Anthony Hope, Ian Maclaren and other well known writers being represented.

Nathan C. Jameson, was today nominated by acclamation for Governor at the democratic State convention at Concard, N. H.

When Cod Become Blind.

Several large cod are kept in one of the tanks of the Amsterdam aquarium, necessarily near the surface and therefore exposed to a strong light from above. Now, the cod, though not a deep sea fish, is not a surface swimmer and lives at depths where the sunlight must be very much modified by passage through the water. It lives in what to us would be semidarkness. Every one of these cod exposed to the strong light is suffering from an extraordinary hypertrophy of the eye. The whole organ has become overgrown, as if in the effort to adjust itself to the use of more light rays it had become overequipped and then useless. The cod, in fact, are blind. The most interesting feature in this change is the extraordinary rapidity with which increased supply of light rays has overdeveloped the organ for its use. It has taken place not by slow degrees from individual to individual, but in a course of time to be measured by months and in every individual in the tank. If this example is a measure of the rapidity with which such changes take place among fishes, the adaptation of those creatures which have migrated from the shallow waters of the deep seas, shown by the total loss or enormous development of their eyes and the growth of illuminating organs to light the abyss, may have been as rapid as it is marvelous.—London Spectator.

A Hotbed of Violence.

The island of Sardinia is a hotbed of violence. The "Granary of Rome" resists the softening influences of civilization and remains with many of the peculiarities which distinguished it in the middle of the last century. "In the country," writes a traveler of that time, "the men are clothed in goatskins, one before and another behind, without breeches, shoes or stockings, and a woolen or skin cap on the head. The women have no other habiliments than a long woolen gown and a woolen cap. The peasants always go armed to defend themselves from one another, for they are all robbers and assassins, so that traveling in the interior is extremely unsafe without an escort, and it is even dangerous for ships to send their people on shore for water unless they are well armed. In short, the Sardes are the Malays of the Mediterranean."—London Chronicle.

A Leopard Collar.

"A leopard collar," he said, taking up a dog collar studded with sharp spikes three inches long. Fitting the collar on his dog, he resumed: "This piece of armor—for that is what it is—illustrates an oddity of the Himalayas—namely, the fondness of the Himalayan leopard for dog flesh. In the Himalayas last year I found that all dogs wore these murderous looking spiked collars. The explanation was that the Himalayan leopards conducted an unceasing dog hunt, and that in attacking a dog they always fell upon his neck. This collar with its sharp spikes is a great protection. It has saved many a dog from a hungry leopard. Often in the Himalayas a dog comes trotting home safe and sound, though with smears of blood and yellow hairs upon his collar spikes."

Names and the Law.

Speaking generally, the law of England allows a person to assume and use any name, provided its use is not calculated to deceive or inflict pecuniary loss. So the court of appeals laid down the law in Dockrell against Dougall, and this attitude of the law, the Law Journal remarks, is characteristic of our British love of liberty. French law is much more strict. It forbids any citizen to bear any name other than that which is expressed in the registry of his birth or to add any surname to his proper name. German law is the same, only it goes a little further in imposing a penalty on any one giving a false name to an official.—Dundee Advertiser.

Guns.

The Germans were the inventors of the first gun. About 1378 Schwartz, a German machinist, manufactured numerous crude guns which were brought into use by the Venetians in 1392. It is a strange fact that cannon were made before small firearms. At Amberg there is still a piece of ordnance marked with the date 1303. Cannon were first used in war at the battle of Crecy, in 1346. It was not until 1544, however, that they were made in England.

Well Turned.

"How old are you?" asked the insurance agent of the lady.

It was thoughtless of him, and her indignant "Sir!" brought him straightway to his senses.

"Of course, you will understand," he went on, "that we have to be careful about making contracts. I merely wished to assure myself that you are legally of age."

Equally Ignorant.

The author of "Reminiscences of a Country Politician" once asked a laborer in an English village how old he was.

"I be just the same age as the queen," he said. "It be either a fortnight older or a fortnight younger. I don't rightly know which, and I don't suppose her knows either."

"Sir," said Dr. Johnson to a friend, commenting upon a widower who remarried, though his wedded life had been unhappy, "it is triumph of hope over experience."

A Lively Tussle.

with that old enemy of the race, Constipation, often ends in Appendicitis. To avoid all serious trouble with Stomach, Liver and Bowels, take Dr. King's New Life Pills. They perfectly regulate these organs, without pain or discomfort. 25c at E. S. Leadbeater & Sons' druggist.

Good for the cough, removes the cold, the cause of the cough. That's the work of Kennedy's Laxative Honey and Tar—the original laxative cough syrup. Contains no opiates. Sold by W. F. Creighton & Co., 401 King street.

Make a note now to get Ely's Cream Balm if you are troubled with nasal catarrh, hay fever or cold in the head. It is purifying and soothing to the sensitive membranes that line the air-passages. It is made to cure the disease, not to fool the patient by a short, deceptive relief. There is no cocaine nor mercury in it. Do not be talked into taking a substitute for Ely's Cream Balm. All druggists sell it. Price 50c. Mailed by Ely Bros. 56 Warren Street, New York.
